- Introduction to programming and OOP in C++
- Basic knowledge in JavaScript
- Basic knowledge in Scheme
- Basic knowledge in Haskell
- Data structures and algorithms
- Good foundation in Mathematics

SUMMARY

Highly adaptive and a competent problem-solver, I am capable of working effectively in an intellectually stimulating and challenging environment while meeting strict deadlines. Given my background in programming, I would be delighted to participate in your company as it will be my first step towards realizing my long-term career path at VMware.
